Dissemination level: ~~Sensitive~~ / Public

## Funding

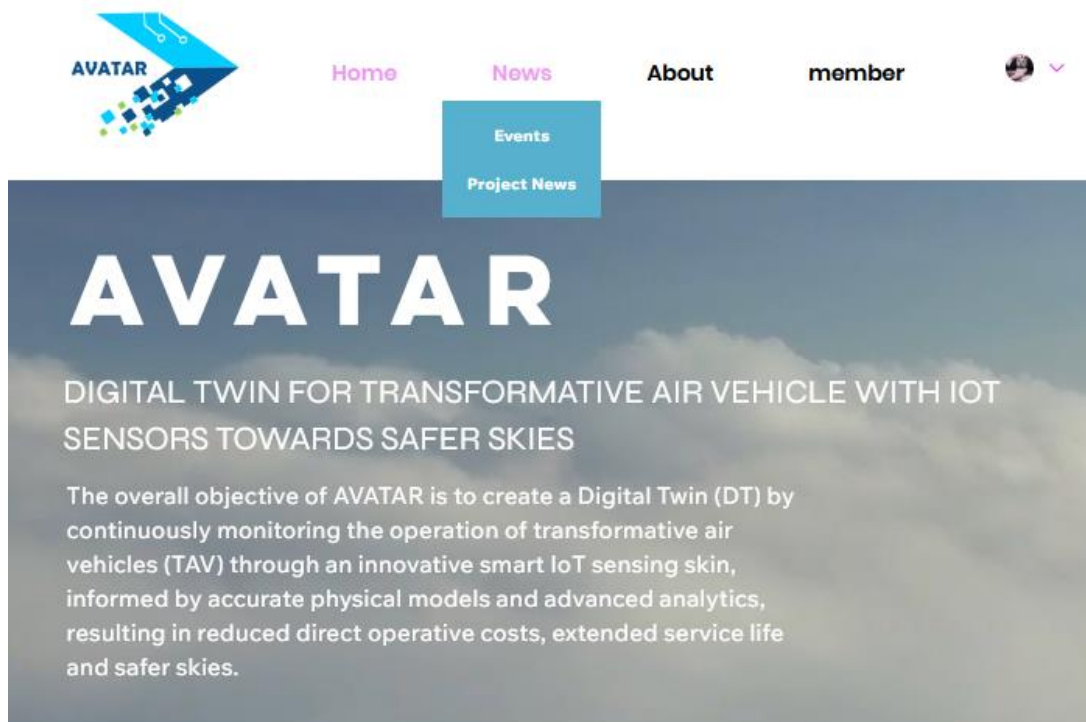

**This project has received funding from the European Climate, Infrastructure and Environment Executive Agency (CINEA) under Grant agreement no 101096073, and from United Kingdom Research and Innovation (UKRI) under Grant agreement no 10065739.**

## Disclaimer

**Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or CINEA. Neither the European Union nor the granting authority can be held responsible for them.**

## Website

AVATAR website (<https://www.avatar-project.eu>) serves as the central hub for all project-related information, including updates, resources, and member profiles. The goal is to provide a user-friendly platform that enables seamless communication and collaboration among project members. Also, AVATAR is designed to provide visitors with an overview of the project, its objectives, and its progress. With AVATAR website, you will have access to the latest project news and developments, as well as the opportunity to connect with other members of our community.

### Contributes Towards Air mobility

Figure 1. Overview of the Homepage

The homepage provides a brief overview of the project, including its goals, objectives, and outcomes. Visitors can also access the latest news and updates related to the project from the news section on the homepage. Above an example of the homepage can be seen in Figure 1.

## Our Kick-off Meeting!

Feb, 21, 2022 | PROJECT NEWS

We are excited to announce that the kick-off meeting for our new project was a great success! The meeting was hosted in Kunovice, a town in the Uherské Hradiště District in the Zlín Region of the Czech Republic on 2022-02-21 and attended by seven of our team members. During the meeting, we discussed the project's objectives, AVATAR Concept Overview, Expected Impacts, and work plan, as well as each team member's role and responsibilities. We also established communication channels and set up a schedule for regular check-ins and updates. The kick-off meeting was a great opportunity for everyone to come together and align our goals and expectations for the project. We had productive discussions and brainstormed innovative ideas to ensure the success of our project. Moving forward, we are confident that our team will be able to collaborate effectively and efficiently to achieve our project goals. We are excited to embark on this journey together and look forward to sharing our progress with you all.

## Project Dissemination/Website Report

The member section of the website allows project members to share their short introductions, photos, and their role in the project. Visitors can easily access this section to get to know the project team and their contributions to the project.

Our news section is the most active area of our site, where we regularly upload blogs and project updates to keep you informed on our progress. The website also embedded with a subscript function, allows visitor to receive our project update in time. Figure 4 shows an example of the project news.

The website has been designed with a user-friendly interface, making it easy to navigate and find the information visitors are looking for. The site is optimized for mobile devices, ensuring that visitors can access the information they need from anywhere and at any time. The interface of mobile device version can be viewed in Figure 3.

Overall, the AVATAR project website is an essential resource for anyone interested in learning about the AVATAR project and its progress. It offers a range of functionalities and information to ensure that visitors have access to everything they need to know about the project.
